To Whom It May Concern

Testimonial for Javerine Tan

We are incredibly grateful to Javerine Tan, a dedicated student from Nanyang Polytechnic, for her outstanding contribution to the ST Engineering Annual Convention 2025 (STEAC 2025), held at ITE College Central Auditorium on 4th March 2025. Despite her commitments as a full-time student, Javerine took on the challenge of producing an AI-generated video that brought to life the energetic and inspiring dance of our senior management.

Since December 2024, Javerine has dedicated countless evenings and weekends to refining the video, incorporating feedback with patience, precision, and an unwavering commitment to excellence. Her passion for AI technology, keen eye for detail, and willingness to go the extra mile played a crucial role in turning our vision into reality.

Beyond her technical skills, Javerine's positive attitude, humility, and strong sense of responsibility stood out throughout the process. She approached every challenge with determination, demonstrating maturity and professionalism beyond her years.

Javerine's talent, dedication, and exceptional character have left a lasting impact on our team. We deeply appreciate her hard work and have no doubt she has a bright future ahead. Whatever she decides to pursue, we wish her every success and look forward to seeing all that she will accomplish.

We highly recommend her for any future endeavours and know she will continue to excel in all she sets her mind to.

Sincerely,

Jimmy Mak
SVP, Head Corporate Development
